Scenario Based Learning,

A company works with number of employees, all the works are dependents on the employees. Even if one of the employees resign the job immediately then assigned work will be not finished at the time, so delivery of the project to the clients will be delayed. Company planned to make solution for this, they want to know which employee may resign this month or next. If they know previously, they can arrange alternative to avoid such problem. As an AI Engineer you must give Solution to this.

- How will you achieve this in AI?

  Prediction the Attrition

- Fin out the 3 Stage of problem Identification

  - Natural Learning Process

  - Supervised

  - Classification

- Name the project?

  Attrition

- Create the dummy dataset?

Sl No.	Emp ID	Name	Resign
1	950511	Bharath	Yes
2	950563	Murugan	No
3	950565	Mani	Yes
4	950415	Palani	No
